

Table 1: Summary of the *in vitro* studies describing interactions of TLRs with *A. fumigatus*.

<i>Authors</i>	<i>Cell model</i>	<i>TLR involved</i>	<i>A. fumigatus-stimulating component</i>
Wang <i>et al.</i> (12)	Human monocytes	TLR4	Hyphae
Mambula <i>et al.</i> (13)	HEK cells	TLR2	Conidia, Hyphae
	Murine PM	TLR2	Conidia, Hyphae,
Meier <i>et al.</i> (14)	HEK cells	TLR2 + TLR4	Conidia, Hyphae
	Murine PM	TLR2 + TLR4	Conidia, Hyphae
Netea <i>et al.</i> (15)	Murine PM	TLR2	Conidia, Hyphae
		TLR4	Conidia
Bellochio <i>et al.</i> (19)	Murine PMN	TLR2 + TLR4	Conidia
	Murine Dcs	TLR2 + TLR4	Conidia
Braedel <i>et al.</i> (22)	Murine DCs	TLR2 + TLR4	Conidia

HEK cells, Human embryonic kidney cells; PM, Peritoneal macrophages; PMN, Polymorphonuclear neutrophils; DCs, Dendritic cells.
