HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

CORRECTION

Correction: *Cryptococcus neoformans* resists to drastic conditions by switching to viable but non-culturable cell phenotype

Benjamin Hommel, Aude Sturny-Leclère, Stevann Volant, Nathanaël Veluppillai, Magalie Duchateau, Chen-Hsin Yu, Véronique Hourdel, Hugo Varet, Mariette Matondo, John R. Perfect, Arturo Casadevall, Françoise Dromer, Alexandre Alanio

The Data Availability statement for this paper is incorrect. The correct statement is: All RNA sequence data from this study have been submitted to NCBI (<https://www.ncbi.nlm.nih.gov/geo>) under accession number GSE118549. The mass spectrometry proteomics data have been deposited to the ProteomeXchange Consortium via the PRIDE partner repository with the dataset identifier PXD012570 <http://proteomecentral.proteomexchange.org/cgi/GetDataset>.

Additionally, the authors inadvertently omit Dr. Caitlin Pepperell in their Acknowledgements section.

The correct Acknowledgements section should read: We would like to acknowledge Christina A. Cuomo, Laurent Châtre, Guilhem Janbon, Jean-Yves Coppée, Pierre Rocheteau, Pierre Henri Commere, Christine Schmitt, Olivier Gorgette, Jacomine Krijnse-Locker, Caroline Proux, Rachel Legendre for their comments on this work and help at different steps of the study.
